

SUMMARY OF GROUP PLAN NONDISCRIMINATION RULES

Edition: October 2015

SUMMARY OF GROUP PLAN NONDISCRIMINATION RULES

The chart shown below is provided for general information only and summarizes the basic nondiscrimination rules for group health plans and cafeteria plans. It is not meant to be all-inclusive.

Self-funded (**self-insured**) plans must comply with existing nondiscrimination rules under Section 105(h) of the Internal Revenue Code (Code).

Note: In the future, the Affordable Care Act may add rules similar to Section 105(h) to nongrandfathered **insured** plans. This item has been delayed pending the release of IRS regulations.

Additionally, any group health plan – whether insured or self-insured – that is offered through a pretax **cafeteria plan** must comply with existing nondiscrimination rules under Section 125 of the Code.

The IRS regulates and enforces the Code’s nondiscrimination rules and may conduct plan audits. IRS regulations set forth rules and testing requirements for employers to ensure compliance. Employers are encouraged to review their plans with legal counsel and tax advisors that offer nondiscrimination testing services for benefit plans.

SUMMARY OF GROUP PLAN NONDISCRIMINATION RULES

Simple Cafeteria Plans:

The Affordable Care Act created a simpler plan for eligible smaller employers meeting contribution requirements and eligibility and participation requirements. A "Simple Cafeteria Plan" is treated as meeting the nondiscrimination requirements of Section 125 for cafeteria plans.

Eligibility:

Employer with an average of 100 or fewer employees during either of the two preceding years, or if the business was not in existence throughout the preceding year, the employer is eligible if it reasonably expects to employ an average of 100 or fewer employees in the current year. Also, if a Simple Cafeteria Plan is established in a year in which an average of 100 or fewer employees are employed, the employer remains eligible for subsequent years as long as it does not employ an average of 200 or more employees.

Participation:

All employees who had at least 1,000 hours of service for the preceding plan year are eligible to participate and each employee eligible to participate in the plan may elect any benefit available under the plan.

Employers may elect to exclude employees who:

- Are under age 21 before the close of the plan year,
- Have less than 1 year of service as of any day during the plan year,
- Are covered under a collective bargaining agreement, or
- Are nonresident aliens working outside the United States whose income did not come from a U.S. source.

Contribution requirements:

Employers must make a contribution to provide qualified benefits on behalf of each qualified employee in an amount equal to:

1. A uniform percentage (not less than 2%) of the employee's compensation for the plan year, or
2. An amount which is at least 6% of the employee's compensation for the plan year or twice the amount of the salary reduction contributions of each qualified employee, whichever is less.

If the contribution requirements are met using option (2), the rate of contribution to any salary reduction contribution of a highly compensated or key employee cannot be greater than the rate of contribution to any other employee.
